

...Luxury Air Charter Solutions

You've flown first class, you're staying first class, so why compromise your South Australian five-star experience with a regular air taxi? At South Australian Air Charters we're setting a new standard in transferring guests to luxury wilderness destinations. We'll fly your private party in executive aircraft offering levels of comfort and style that reflect famous destinations like Southern Ocean Lodge on Kangaroo Island and The Louise in Barossa Valley. And we'll look after you on the ground, too, from the moment you arrive in South Australia to the moment you say goodbye.

A Journey To Match The Destination

You'll be personally greeted at Adelaide International Airport by your South Australian Air Charters pilot. Of course, our pilots will take care of your itinerary and your luggage, but they'll also take care of you.

Whether you're raring to go after a domestic flight or you need a little time after an international long-haul, it's not a problem. Unlike regular local charters, we fly when you want, not when our schedule allows. And by the way, on most occasions our aircraft will accommodate all your luggage. That's right – your entire first class or business class luggage allowance.

With a suite of aircraft available from the Cirrus SR22 through to the state of the art Pilatus PC12 and Beechcraft King Air B200, we can fulfill your aviation requirements.

A Limousine, Not A Yellow Cab

In the air, we'll keep you comfortable and informed, providing on-board refreshment packs and a newspaper. If you wish, we're delighted to share our knowledge of the exotic South Australian landscape as it passes beneath, and even make some occasional flight-seeing detours for that extra-special photo opportunity.

Fly-Stay Adventures Born Of Local Knowledge

South Australian Aircraft Charters is available to service your flying needs. But our experience in South Australian luxury travel means we can also tailor clever, time-efficient escapes combining the very best five-star experiences this huge state has to offer.

We can provide three-day, one-stay escapes or we can bring together wildly different retreats like Southern Ocean Lodge (Kangaroo Island), Arkaba Station (Flinders Ranges) and The Louise (Barossa Valley) to form seven-day itineraries.

Visit our website for our Fly-Stay packages, fully-inclusive of accommodation and return private air charter.

But of course, because we're fulfilling the charter operations, we're perfectly placed to help design an itinerary around any travel needs, ideas or aspirations you may have.

Great Service, Great People

Pilot Peter Sherlock and host Pat Kent have seven years experience looking after executive guests travelling with Big Blue Air Touring.

“Sherlock and Kent take well-travelled guests and fly in the face of their highest expectations”

-UK's Sunday Times newspaper
Just one of many world-class reviews.

South Australian Aircraft Charters is a joint venture between five-star operator Big Blue Air Touring and Martyn Smith, retired airline captain and owner/operator of Adelaide Bi-planes.

Flights are conducted by Adelaide Biplanes under the Maltings Nominees Pty Ltd AOC no.C601513-07 and/or South Coast Air Centre AOC no. C070904-14.
